Additional comments

have been dealing with this situation for more than a year when one of the residents feeds the feral cats. I have recent photographs that I took today March 7, 2022. I have reported the resident countless times to the front desk and even though I am aware they try there is no results and the situation is becoming unbearable. They tell me there is nothing they can do. This is my business and a rental property and a recent review on a global rental website called Oak Plantation CAT CENTRAL . I have had so many bad reviews because of the selfish actions of this resident who does not fully understand that it is against the county regulations to feed feral cats. Of course what happens is the raccoons come along and they become tame and vicious and sometimes prevent my guests from entering the apartment. I feel I have been tolerant and I have tried extremely hard to use the channels available to me but as I am getting nowhere I want to seek the help of the county. The contact at the front desk is DAWN who is the manager and I have provided the email address.
